Create your (almost) instant
bunkering solution

YFEL – A free-standing flexible option for silage bunkering (*kuilvoeropberging*), as well as grains and fertiliser storage. YFEL is used by Beefmaster, AFGRI, GWK and many others.

The YFEL is movable and fast to erect with a carrier attachment for a forklift. YFEL's can be easily moved around to create or change bunker shape and lengths, or loaded onto trucks and relocated to other premises.
